NORTH SOUTH EAST AND WEST

The Audience

3. It will be very important when making up your dance to remember that Hi-5 usually have lots of children in their audience. In this song, there are lots of places where the audience can join in singing and moving.

Audience participation is encouraged in these types of songs. In this song, where do you think the audience could join in? See if you can find 'ooh-ah, ooh-ah'. This would be a good place to start.

Make a list of these special sounds and words. Decide in your group how you would like each to be said or sung and work out a simple movement for each one.

Teach these to all of your classmates.

Performance Time

4. The time has come to perform your dance. Set up a video recorder if you have one available to capture your performance.

Use the CD to accompany your dance. Your classmates can be your audience.

You could perform your song and dance for the younger children in your school. They will love to join in with you and maybe they will even sing along.
